

We Ball

Dom Kennedy

We ball, we drink, fuck hoes, rock mink
New body, gold links, she goin down, no teeth
LA, thats me

You wanna meet somebody ask me
You wanna see somebody ask me
Ay I tell her lets get in the back seat
Your crew, last week, my n-ggas, mad deep
My bitch, bad piece, your bitch, got bad feet
I pray to God, I never flop, I get a loft, a better spot
Another rollie, a better watch, I get a plane & then a yacht
And my haters, let em watch, line em up, give em shots
Dont save em, jus let em drop, they said id never make it to the top
But we ball, take shots, I want another, it dont stop
Your big mouth, a big glock, I love you all, fuck the cops

Bridge

We ball, bust some shots, we ball, bust some shots,
We ball, bust some shots, we ball, bust some shots
We ball, bust some shots, we ball, bust some shots
We ball, bust some shots, we ball, bust some shots

Kendrick Lamar

Ok im riding through Leimert, my tires in reverse

Im lost but I know this foreign navigation works
I made a right on King, I seen a couple skirts
I said bitch get in but dust them sandals off first
Ok im doin 105 on 105

Witnesses had said they seen a ball of fire
Bitch im tryna president at Jive while you talk and jive
All these presidents wont be surprised if we came alive
I only fuck with playas and pimps n-gga
You a created playa like sims n-gga
My cup be filled up to the brim n-gga
Your bitch fixin her makeup in my rims n-gga
You just target practise -
Everybody say they seen it but nobody know what happened
What happened yesterday baby girl? Fix your mood
Cuz I dont like my head with some attitude
And I dont like your legs less they at the roof

Pedicure toward the ceilin, mollys in the cabinet too
Pop - pop -pop poppin pussy rather casual
Section .80 made me hoe so this is what I had to do
Ball, I ball, I phone million dollar missed calls
I hit the bank, withdrawals, I make her plank, with no drawers
Motherfucker I ball
