I Donâ€™t Wanna Stop

The Bamboos

Hey there i hope everythings alright
I forgot to call you in the wintertime
Like the waves crash coming right
i've got feelings pouring down against the ceiling
While you try to trace which side i'm onWhen the wind blows between us
High above this empty feeling
I don't want to stop
I don't want to stop
When the waves crash beneath us
Down below this empty feeling
I don't want to stop
I don't want to stopCan we dance like everything's alright
Can we trade the day in for the night
Like a homesick tunneling
I'm not breathing till I leave with you believing
I don't want to trace another songWhen the wind blows between us
High above this empty feeling
I don't want to stop
I don't want to stop
When the waves crash beneath us
Down below this empty feeling
I don't want to stop
I don't want to stopI don't want to stop
I don't want to stop(repeat chorus)
