The Losing Side Of Me

The Mavericks

Well I wonder if you knew where I had been
I was trying to play a game that I could win
But I'm lower than a beggar on his knees
And you'll never see the losing side of me
Well I'd ask my friends about you now and then
They told me that you would be back again
But I'm thinking about what wasn't going to be
And you'll never see the losing side of me
The losing side of me just won't be found
'Cause I know that you've been seen running 'round
But I'm crying like the birds up in the tree
And you'll never see the losing side of me
Well I wonder if you knew where I had been
I was trying to play a game that I could win

But I'm lower than a beggar on his knees
And you'll never see the losing side of me
The losing side of me just won't be found
'Cause I know that you've been seen running 'round
But I'm crying like the birds up in the tree
And you'll never see the losing side of me
The losing side of me just won't be found
'Cause I know that you've been seen running 'round
But I'm crying like the birds up in the tree
And you'll never see the losing side of me
No you'll never see the losing side of me
No you'll never see the losing side of me
