

# Upstream

## Alchesound

Straight onto the beating path  
Phase down into its aftermath  
Kills me to find myself here at last  
    I blame it on my human side  
    I blame it on the other guy  
    I blame the stars on the boulevard  
        A perfect body, a perfect smile  
    The perfect lover impeccably in style  
        I used to be, I'd laugh it off  
        Now it's just this joke I got  
    A halo promise in a sinner's dream  
    The punch line is I always swim upstream  
        I blame it on my human side  
        I blame it on the other guy  
        I used to be, I'd laugh it off  
        Now it's just this joke I got  
    A halo promises a sinner's dream  
    The punch line is I always swim upstream, upstream  
        I used to be, I'd laugh it off  
        Now it's just this joke I got  
    A halo promises a sinner's dream  
    The punch line is I always swim upstream, upstream
