

Make It Right

J Mascis

I don't know when (?)
I don't know how we know
All I know is I feel it
I can't make it alone
I can't face on my own
I need more than to be here
Make it right
Make it right
Make it right
Silence held me the way
Now I'm lost and I'm reelin'
I know more than I should
Never did need no clue
All I know is I feel it
Make things right
Make things right tonight
Make it right
