

Make It Right

J Mascis

I don't know when (?)
I don't know how we know
 All I know is I feel it
 I can't make it alone
 I can't face on my own
I need more than to be here
 Make it right
 Make it right
 Make it right
Silence held me the way
Now I'm lost and I'm reelin'
 I know more than I should
 Never did need no clue
 All I know is I feel it
 Make things right
 Make things right tonight
 Make it right
