Cyco Vision

[Suicidal Tendencies](#)

You tell me what I wanna hear
I hear it all with my ears
But that won't do me any use
So I use my eyes to see the truthI've got cyco vision
I use cyco vision
I said cyco vision
I see with cyco visionIt doesn't matter what you say, bullshit
It only matters what you do, no shit
You cannot take the easy way out with me
'Cause I got cyco visionYou put a smile on your face
To try and hide behind your lies
But it just magnifies the pain in your soul
That I see with my cyco visionWhen you think with all your might
You change right to wrong and wrong to right
But it stays the same to me
'Cause I got cyco vision
