# Surrender

## Evanescence

Is this real enough for you
You were so confused
Now that you've decided to stay
We'll remain together
You can't abandon me
You belong to me
Breathe in and take my life in you
No longer myself, only you
There's no escaping me my love
Surrender
Darling, theres no sense in running
You know I will find you
Everything is perfect now

We can live forever
You can't abandon me
You belong to me
Breathe in and take my life in you
No longer myself, only you
There's no escaping me my love
Surrender
Breathe in and take my life in you
No longer myself only you
There's no escaping me my love
Surrender
Surrender
Surrender
