

# Surrender

## Evanescence

Is this real enough for you  
You were so confused  
Now that you've decided to stay  
We'll remain together  
You can't abandon me  
You belong to me  
Breathe in and take my life in you  
No longer myself, only you  
There's no escaping me my love  
Surrender  
Darling, theres no sense in running  
You know I will find you  
Everything is perfect now

We can live forever  
You can't abandon me  
You belong to me  
Breathe in and take my life in you  
No longer myself, only you  
There's no escaping me my love  
Surrender  
Breathe in and take my life in you  
No longer myself only you  
There's no escaping me my love  
Surrender  
Surrender  
Surrender
