

Watch Out

Alex Gaudino

expectations and possibilities
don't need no crystalball across the probability
i plan to take you home, do what you do to me
come be my roller-coaster got you where we supposed to be
watch out
i'm digging
why don't give it a try
deep down
can you feel it
you know i've been right
better hold tight
we gone turn it round
and around
and around
and around
and around

expectations of what you giving me
you've got me head to toe, your wet arm hold your arm on me
why don't you satisfy my curiosity,
come be my romeo, you've got me where i wanna be yea
watch out
i'm digging
why don't give it a try
deep down
can you feel it
you know i've been right
better hold tight
we gone turn it round
and around
and around
and around
and around
