

# Opinions

## Vega 4

One, two, three, four  
Frustrated with what's going on  
I feel lost and I don't feel right  
Tell me what I can do to make them happy?  
But then will I be happy?  
I can't do wrong, I can't do right  
I feel so alone tonight  
I wish someone could feel  
And understand the way I think  
They got me on the brink of self destruction  
I wish someone could feel  
People surround me fill my head with opinions  
Of what they think is right  
I can't do wrong, I can't do right  
I feel so alone tonight  
I wish someone could feel  
And understand the way I think  
They got me on the brink of self destruction  
I wish someone could feel  
I can't do wrong, I can't do right  
I wonder where you are tonight?  
I wish that you were here  
You understand the way I think  
You know they got me on the brink of self destruction  
I wish someone could feel  
I wish someone could feel  
I wonder where you are? Whow, whow
