

Make Me Feel Alive Again

Karl Valentine

Underneath the stars at night
You can see yourself frozen in time
It was the first time, that you knew
You were in love
It's hard to think that
You ever felt so much in love

Make me feel alive again
I have lost my way
Make me feel in love again
Make me feel the way
I felt yesterday

Tell me where the time has gone?
Because I can remember writing a happy song
It was a love song
I sang it for you
Now, I've grown old
And the years do take their toll

Make me feel alive again
I have lost my way
Make me feel in love again
Make me feel the way
I felt yesterday

There's no reason to explain
How these feelings ever slip away
They just fade away
They don't leave a clue

Tell me why, all the magic disappears through the years?

Make me feel alive again
I have lost my way
Make me feel in love again
Make me feel the way
I felt yesterday

I will never lay to rest

The hope that one day I can have a chance
To relive the past
Those feelings for you
Until that day
I will hide my dream away

Make me feel alive again
I have lost my way
Make me feel in love again
Make me feel the way
I felt yesterday
