## White Sea

When I close my eyes  
They bite hands and heels  
Leave those kids behind  
I've got blood on my hands Pray for all your dead  
We whisper softly because it's all we know  
It won't change a thing  
Ever changing but we are still the same  
All we knew are lies  
They'll never let us, they'll never let us go  
And it's over now  
And it will never, ever be the same I pray for my dead  
Mostly for myself  
Selfish just like that  
You've got blood on your hands Pray for all your dead  
We whisper softly because it's all we know  
It won't change a thing  
Ever changing but we are still the same  
All we knew are lies  
They'll never let us, they'll never let us go  
And it's over now  
And it will never, ever be the same Say whatever filth you want  
I was ever all you need  
And say what you want  
I was ever all you need When I close my eyes  
They bite hands and heels  
Leave those kids behind  
I've got blood on my Pray for all your dead  
We whisper softly because it's all we know  
It won't change a thing  
Ever changing but we are still the same  
All we knew are lies  
They'll never let us, they'll never let us go  
And it's over now  
And it will never, ever be the same
