

I Know Better

John Legend

[Verse 1]

They say sing what you know
But I sang what they want
Some folks do what they're told
But baby this time I won't
Will look through that door
I know the truth won't lie
Some things I've done before I can't justify[Pre-Chorus]

There are kings in my past
Things no one can be proud of
But I stand in the light I've casted
Turn away from any lack of love
Oh, and I walked through that door
I say here I go

You see me and nothing more
I'm singing what I know[Chorus]

I know better

I know better[Verse 2]

Legend is just a name
I know better than to be so proud
I won't drink in all this fame
I'll take more love than I'm allowed[Pre-Chorus]

I won't have to cut it off from where it came
My history has brought me to this place
This power and the color of my face[Chorus]

And I know better

I know better[Bridge]

I'll rise from the floor if I don't win
I'll bust upon that door so let me in
And the music chooses me to sing I let her
I'll sing what I know, yeah[Chorus]

I know better, oh

I know better, yes

I know better

I know better
