

Give a Little Love

[Rilo Kiley](#)

you'll get your money
i'll get my friends
hard living's forgiven
in the end you got your troubles
i got mine
on a clear day i can
read your mind oooh
it's like a battlefield inside (1st chorus)
you got to
give a little love
give a little love
give a little love
to get a little love
give a little love
give a little love i know you better
than you want me to
inside your pockets
and walking in your shoes oooh
it can get better if you try (1st chorus) (2nd chorus)
i hope you
give a little love
give a little love
give a little love
to get a little love
give a little love
give a little love i keep you close
in my wildest dreams
my rearview mirror
and you're waving to me
our last goodbye (2nd chorus x2)
