

# Sink

## Oak is Keeping

Abandon ship the crew is going down  
shake all the hands with somber frowns  
avoid last apologies there is no time to think  
spining into undiscoverable sink

Get your sea legs we are going down  
slowly spinning into the sound

Women and children first  
the sea has to tends an unquenchable thirst  
avoid last apologies there is no time to think  
spinning into a discoverable sink
