Go to the Hungry Ones

Keith Green

Go to the hungry ones and fill them with His bread
They'll leave their darkness as you shine the light He shed
Point to His promises, believe in all He said
And His joy will be manifest in you
And the lost will be found as He works through youOut on the highways, there's so many passing by
Step out in boldness and watch the family multiply
Pray up some miracles, let's open up the sky
And His joy will be manifest to you
And the lost will be found by the things you doOh don't you know that Jesus loves you
So let's go and spread His word
Redeem the time while there's still time
Let's share the call we've heard
Let's share the call we've heardIs your house open to let strangers enter there
Give to the least of them, show them someone cares
And you may be entertaining angels unaware
And His joy will be manifest to you
And the lost may be found as He works through you
And His joy will be manifest in you
And the lost, they'll be found by the things you do
