

Gift With a Golden Gun

Toto

It's a twelve o'clock depression, my mind is in recession

And I can't answer you

It's a day I can't remember, I think it's late September

Or is it April blue, yeah? I can't find peace of mind in a world that's so unkind

It's just a little heart breaker, just a little heart breaker, yeah It's a sticky situation when I'm near hallucination

And I refuse to bow

They used to think me funny when I promised them their money

But they're not laughing now I can't find peace of mind, then she calls me just in time

She's a gift with a golden gun and she's got them on the run

She's a gift with a golden gun, 'cause she knows what they've done I can't find peace of mind, then she calls me
just in time

She's a gift with a golden gun and she's got them on the run

She's a gift with a golden gun, 'cause she knows what they've done Just what they've done, done, done, done,
done

What they've done, done, done, done, done

Just what they've done, done, done, done, done

Done, done, done done, done
