

Walking on Water

[Ryan Cabrera](#)

Look at you now
Holdin' on by yourself
Baby don't doubt
You're walkin' on waterThe light in your eyes
Flows from the inside
Beauty runs out
You're walking on waterYou're everything you need
You're anything you want to be
And everything you are is here right now
The sun'll fall down
The shadows come out
Don't fear the clouds
You're walking on waterYou're everything you need
You're anything you want to be
And everything you are is here right nowLife is a dream
Whatever you want it to be
Don't let it slip away
When love is hereYou can call
Any time at all
Or if you need someone
To cushion your fall
You can lay me downYou're everything you need
You're anything you want to be
And everything you are is here right nowLife is a dream
Whatever you want it to be
Don't let it slip away
When love is here
So lay me down
