Go Outside

Robbie Seay Band

I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and singHe is our KingI go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing, yeahHe is our King
He is our KingNo one should be left out
No one should be left out
No one should be left out
And no one should be left outIf you have air to breathe
And hear your call to singI go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing, yeahHe is our King
He is our KingNo one should be left out
No one should be left out, oh, no
No one should be left out
And no one should be left outIf you have air to breathe
And hear the call to singNo one should be left out
No one should be left out
And no one should be left out
No, no one should be left outNo one should be left out
And no one should be left out, oh, no, no
No one should be left out
No one should be left outOh, hear the call to sing
Hear the call to sing
Hear the call to sing
No one should be left outOh, hear the call to sing
Hear your call to sing
Hear your call to sing, to singIt's here
Hear the call, it's calling you to sing, to sing
Hear the call, it's calling you to sing, to sing
Hear the call, it's calling you to sing, to singAnd hear your call to sing
Hear your call
Hear this call
No one should be left out
