

# Go Outside

## Robbie Seay Band

I go outside and praise the God  
Who mapped the stars out in the sky  
And gather 'round with those who love and sing He is our King I go outside and praise the God  
Who mapped the stars out in the sky  
And gather 'round with those who love and sing, yeah He is our King  
He is our King No one should be left out  
No one should be left out  
No one should be left out  
And no one should be left out If you have air to breathe  
And hear your call to sing I go outside and praise the God  
Who mapped the stars out in the sky  
And gather 'round with those who love and sing, yeah He is our King  
He is our King No one should be left out  
No one should be left out, oh, no  
No one should be left out  
And no one should be left out If you have air to breathe  
And hear the call to sing No one should be left out  
No one should be left out  
And no one should be left out  
No, no one should be left out No one should be left out  
And no one should be left out, oh, no, no  
No one should be left out  
No one should be left out Oh, hear the call to sing  
Hear the call to sing  
Hear the call to sing  
No one should be left out Oh, hear the call to sing  
Hear your call to sing  
Hear your call to sing, to sing It's here  
Hear the call, it's calling you to sing, to sing  
Hear the call, it's calling you to sing, to sing  
Hear the call, it's calling you to sing, to sing And hear your call to sing  
Hear your call  
Hear this call  
No one should be left out
