

# Thru Fade Away

## Mother Love Bone

You can fade away my love I will always  
Remember your faces, through fade away  
Bless all of your eyes, I realize you're my reason  
And I will always cherish the days, when our souls will be together

She's my sunshine, my moonshine  
She's ma' hot, ma hotma Gandhi  
She's my lady, she's from Euphrates  
Sure 'nugh give that woman to me  
You're just another one, just another statistic  
You're needle-sickness, illed weakness  
Yeah, you killed, yeah you killed, yeah you killed me boy
