Waiting

Mark Collie

I've been waiting waitin' on a girl like youI've been waiting waiting all of my lifeI've been waiting waiting on a girl like you
I've been waitin' on a girl like you all of my lifeI was running out of patience running out of dreamsHeaven must have sent you to shine a light on me
The moment that I saw you you took my breath awayTo answer to a prayer that I've been praying every day
[guitar]Everybody told me they told me I was wrong
I've been waiting...They said that I was crazy you'd never come alongYou touched me and you saved me just in the nick of time
Now I'm so glad I waited I can't believe you're mine
I've been waiting...I've been waiting I've been waitingI've been waiting I've been waitingYes I've been waiting on a girl like youI've been waiting I've been waiting I've been waiting
