

# Pink And Black

Tyler Hilton

So, yeah, you said  
You heard this one  
Maybe lived it twice  
With bias on my side  
I swear I've got  
A different one  
To be laid to line  
And with a dime for your advice  
You never saw a man  
Make a fist  
And grab so fast  
He said  
Good luck you know  
You better just forget it  
'Cause love is never  
In the same place that you left it  
I said you  
Wouldn't understand  
This was long term love  
She was perfectly described  
And what she wore  
When we last met  
It was pink and black  
A study in scarlet up inside  
You never saw a man  
With bigger eyes  
That understand  
He said  
Good luck you know  
You better just forget it  
'Cause love is never  
In the same place that you left it  
You never saw a man  
With bigger eyes  
That understand  
He said  
Good luck you know  
You better go and get it  
'Cause love is never

In the same place if you left it  
He said good luck you know  
You better go and get her  
'Cause love is never  
In the same place if you left her
