

# Skin Parade

## Guided By Voices

For Chrissakes, Charley  
Send them your love  
Pictures from happier times  
When babies acted like babies  
So did the grown-ups  
The band played "We All Fall Down"  
And some of us did...Fly off the wheel  
Travel highwired  
There are movements necessary  
Then there is unnecessary motion  
It happens all the time  
You can see it swimIn the skin paradeWhere other objects move too  
Right through youTo the other side  
It is come alive!  
It is come aliveIn the skin parade  
In the parade of skinCelebrating this level  
Of concrete movementWicked!
