

Let's Go Out Tonight

Curtis Stigers

Boy, you know, I'm feeling you
And what you're saying is so true
I know, you see my shining now
My style is super fine
Well, it's all left behind
Let's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make it
Let's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stopping
There's things I'd seen
They're on another side of me
There's a whole other side of me
'Cause I play my tools to get up and get out
I've been waiting around
Let's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make it
Let's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stopping
Now listen up, shorty, I'm here to do something
They gonna talk, they gonna blame
They gonna put it in your name
No more hop-scotch, pink and purple pola dots
The black top, slide in the jaguar

You the driver not a bike rider
Push button, loose cracks, saying through the visor
Um, tell them hello, hello then goodbye, goodbye
Hold up, now they wanna carpool
She used a brown bag, now she carrying plastic
Get that money young woman
That's a game drastic, this, here's a classic

Playa baby, holla baby, they tell me to go very
Finally they can jammy, beat this miss, chubby late-tress
Grant your wish, perfection, please, don't take your list
Please list your trick, it don't matter how just get
Rich, rich, rich, rich, rich
No, no, no
Let's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make it
Let's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stopping
Let's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make it
Let's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stopping
