

When the Night Comes (Edit)

Joe Cocker

Hold on I'll be back for you it won't be long
But for now there's something that's calling me
So take me down that lonesome road
Point me east and let me go
This suitcase weighs me down with memories I just wanna be the one you run to
I just wanna be the one you come to
I just wanna be be there with someone
When the night comes
Lets put all our cares behind us
And move where they'll never find us
I just wanna be there beside you
When the night comes
When the night comes Two spirits in the night
We can leave before the morning light
When there's nothing left to lose
There's nothing left to fear
So meet me on the edge of town
Won't keep you waiting I'll be around
Then you and I will just roll right out of here I just wanna be the one you run to
I just wanna be the one you come to
I just wanna be there with someone
When the night comes
Lets put all our cares behind us
And go where they'll never find us
I just wanna be there beside you
When the night comes
When the night comes I know there will be a time for you and I
Could take our hands and run away
Pick up all the pieces of this shattered dream
We gonna make it out some day
(Make it out some day)
We'll be coming back, coming back today (Ohh, when the night comes)
I wanna be the one you run to
(Ohh, when the night comes)
To be the one you come to
(Ohh, when the night comes)
I wanna be the one you run to
(Ohh) (I just wanna be the one you run to)
(Wanna be the one you come to)

I just wanna be there with someone
When the night comes
Lets put all our cares behind us
And move where they'll never find us
I just wanna be there beside you
When the night comes
When the night comes
(Ohh, when the night comes)
When the night comes down
I wanna feel it to you
(Ahh, when the night comes)
Oh I wanna, when the night comes
(Ahh)
