

Let's Get Drunk & Get It On

Old 97's

Your eyes are the color of the earth as seen from outer space
You got a gorgeous face, though its a little odd
Tell me that you like the songs that tell the story of
real love, the kind that's flawed
Let's drink whiskey and do it
all night long
Let's get drunk
and get it on
Take you to a cheap hotel out on the interstate
Well you look so great to me
This is the perfect place for a rendesvouz
Its got a rotten view but the ice is free
Let's drink whiskey and do it
all night long
Let's get drunk
and get it on
solo over verse
lay down a blanket beneath the water tower
watch the meteor shower and heaven on display
we got right here, right now, lucky us
its wonderlust, what a perfect day
Drink champagne and make love all night long
Let's get drunk and get it on
Let's drink whiskey and do it all night long
Let's get drunk and get it on
Let's get drunk and get it on
Let's get drunk and get it on
Hey! woo hoo!
