

Relax

Calvin Harris

Relax, I've come away with a panic attack
The spinning lights make it hard to react
Catch your breath, take your furniture back It's for the taking, all these girls are waiting
Love's not god forsaking
And that's worth celebrating Relax, relax Relax, I've come away with a panic attack
The spinning lights make it hard to react
Catch your breath, take your furniture back Relax, I've got the coat and the jackets to match
We can replace everything that you lack
Take a book and a nicotine patch It's for the taking, all these girls are waiting
Love's not god forsaking
And that's worth celebrating It's for the taking, all these girls are waiting
Love's not god forsaking
And that's worth celebrating Relax, relax, relax It's for the taking, all these girls are waiting
Love's not god forsaking
And that's worth celebrating It's for the taking, all these girls are waiting
Love's not god forsaking
And that's worth celebrating Relax
