# Let Me Breathe

## Harris J.

The more I fight the day
The more it drags on
And no Blues can sing it away
I just gotta press onThe more you talk to me, baby
The more I cry
Just leave me, quickly save me
From the darkness you provideIt's just too hard
It's just too hard to deal with
It's just too much
It's just too much to deal withI had enough
So hang up on my call
Let me be, let me breathe
Let me get control of my focus
I can't take this feeling no more
Please don't make me love you no moreLet me be, let me breathe
Let me get me out from under
I can't this feeling no more
Please don't make me love you no more
Don't make me love ya
Like I love you now
PleaseYou swore you'd love me forever
But you'd rather stay away
You promised we'd be together
Are you expecting me to wait?
For an imaginary day
To come and face this pain
Baby, I know what you're doing
And it's a shameful game to play
Who exactly do you think I am?
You're not gonna wipe your feet on me
Just tell me straight
Let there be no mistakingIt's just too hard
It's just too hard to deal with
It's just too much
It's just too much to deal withI had enough
So hang up on my call
Let me be, let me breathe
Let me get control of my focus
I can't take this feeling no more

Please don't make me love you no moreLet me be, let me breathe
Let me get me out from under
I can't this feeling no more
Please don't make me love you no more
Don't make me
Don't make me love ya like I love you nowYou know that I don't feel right without your
...kind of light
...of falling back into my love whenever you feel like
Way down in the shadows I can make out just a chink of light
But the window's just too high
Freedom's asking me way I can't [missing]Why can't I make it?
Why you holding on?
Why you holding onto me?Let me be, let me breathe
Let me get control of my focus
I can't take this feeling no more
Please don't make me love you no moreLet me be, let me breathe
Let me get me out from under
I can't this feeling no more
Please don't make me love you no moreYou gotta let me go now
Let me move on
Let me be
Let me free of you (?)
