Be Happy Children

Paul Weller

Oh my love ones look long into the night
your dad is gone with all for a while
int hat darkness of that way sky
know my heart is always with you
and is really long to cry
come onThink upon think alone
be happy children
think upon think alone
be happy childrenSleep now, say a thing tight
been researched of what tomorrow might bring
be happy children
for my love the'res no limit
when it comes to love and you
but is always with you
and I'm always on your sideSleep now save the day
think a step towards of what tomorrow might bring
be happy childrenThink upon think alone
be happy children
think upon think alone
be happy childrenThink upon think alone
be happy children
think upon think alone
be happy children
