

Every Night

Imagine Dragons

I'm coming home to you
Every night every night every night every night I'm a colorless sunrise,
I'm never good enough
I'm the wind that's in your hair that ruffles you up If you could find a reason
You could let me know
I won't blame you, I'll just turn and go I'm coming home to you
Every night every night every night every night
Coming home to you
Every night every night every night every night
My mind is made up, nothing can change that
I'm coming home to you
Every night every night every night every night Searching to find myself
All I find is you
I can hardly stand myself
So what am I to you? If you could find a reason
You could let me know
I won't blame you
I just turn and go I'm coming home to you
Every night every night every night every night
Coming home to you
Every night every night every night every night
My mind is made up, nothing can change that
I'm coming home to you
Every night every night every night every night No matter no matter no matter what were facin'
It don't matter it don't matter Cause the reason that I'm here
Is the same thru all these years
I'm not changing
I'm not changing anything at all I'm coming home to you
Every night every night every night every night
Coming home to you
Every night every night every night every night My mind is made up
Nothing can change that
I'm coming home to you
Every night every night every night every night
