

# Turn My Head

## Live

Anyone, caught in your mystery  
Keep it angry, keep it wispy  
I've fallen down, drunk on your juices Turn my head  
Turn my head  
It's aimed at you Funky temple, your dress is torn to shreds  
Your eyes are crazy, I bowed to save my head and  
I can't forget you, but I can't remember Turn my head  
Turn my head  
It's aimed at you Turn my head  
Turn my head  
It's aimed at you, baby, baby Oh no, we came to love you all day  
These bastards are leavin', somebody's got to stay  
Whatever we called you, just a name, just a name Turn my head  
(Turn my head)  
Turn my head  
It's aimed at you, yeah, now Turn my head  
(Turn my head)  
Turn my head  
It's aimed at you  
It's aimed at you
