The Heisman Hopefuls

So take a look
she's only going for your throat
its not worth these empty promises
to find out what she took
another photograph to remind the world
you're just a sucker for the bride to beso close your eyes, your so empty
its not your fault that you couldn't see
damn the space and everything in between
in the past, you're just a memory
(what now!)
we're going too quickly
(to the bed!)
not like you'll miss me
(break down!)
i'm not letting you around me
breaking it down is only getting faster
(what now!)
we're going too quickly
(to the bed!)
i know you wont miss me
(break down!)
i'm not letting you around me
breaking it down is only going faster
only going fasterwell there she goes
calling me out now its 3 a.m
the only time for phone calls
i should have seen this coming for a while
it's just too hard to travel all these miles
so close your eyes you're so empty
it's not your fault that you couldn't see
damn the space and everything in between
in the past, you're just a memory
(what now!)
we're going too quickly
(to the bed!)
not like you'll miss me
(break down!)
im not letting you around me
breaking it down is only getting faster

(what now!)
we're going too quickly
(to the bed!)
i know you wont miss me
(break down!)
im not letting you around me
breaking it down is only going fasterwhooh!his back's against the wall
she's got him by the throat
there's no where he can run
she's gunna make him choke
his back's against the wall
she's got him by the throat
there's no where he can run
she's gunna make him choke
gunna make him choke(what now!)
we're going too quickly
(to the bed!)
not like you'll miss me
(break down!)
im not letting you around me
breaking it down is only getting faster
(what now!)
we're going too quickly
(to the bed!)
i know you wont miss me
(break down!)
im not letting you around me
breaking it down is only going faster
only going faster
only going faster
only going faster
we're only going faster
