

# Live Forever

## The Band Perry

Oh, oh

I was dreaming of war  
Saw that I wouldn't die  
Was dreaming of choice  
That my ship would fight  
I was dreaming because  
It made me feel so alive  
Was dreaming it all

From my bed last night You will be my only one  
Hold my hand so we can run

You and I, we're staying young, yeah We're gonna live, we're gonna live forever This time, I want it all

I want it right now, feel the fall

Go, go crazy, go, go, go crazy

We're gonna live, we're gonna live forever

This time, I want it all

I want it right now, wanna feel the fall

Go, go crazy, go, go, go crazy

We're gonna live, we're gonna live forever I was feeling a storm

But it wasn't outside

Was feeling a force

I'm electrified

I was feeling my heart

There was thunder inside

Was feeling it all

From my bed last night You will be my only one  
Hold my hand so we can run

You and I, we're staying young, yeah We're gonna live, we're gonna live forever This time, I want it all

I want it right now, feel the fall

Go, go crazy, go, go, go crazy

We're gonna live, we're gonna live forever

This time, I want it all

I want it right now, wanna feel the fall

Go, go crazy, go, go, go crazy

We're gonna live, we're gonna live forever

We're gonna live, we're gonna live forever All the things that I don't know

All the dreams that I've been shown

All the ways that it could end

Tonight close your eyes We're gonna live, we're gonna live forever This time, I want it all (I want it all)

I want it right now, feel the fall

Go, go crazy, go, go, go crazy (go crazy)  
We're gonna live, we're gonna live forever  
This time, I want it all (I want it all)  
I want it right now, wanna feel the fall  
Go, go crazy, go, go, go crazy  
We're gonna live, we're gonna live forever  
Oh, oh, oh, hey  
Oh, oh, oh, forever  
We're gonna live, we're gonna live forever
