

Celebrate

Bleach

Is this real, I hope it's not fake
Just a dream, don't let me wake
Hands down, hands down
You're the best I've ever foundAnd I celebrate the day
That I met you, that I met you
I celebrate the day
That I met you, that I met youYou and me, can change the world
Move a mountain, the impossible
Is unbound, hands down
You're the best I've ever foundAnd I celebrate the day
That I met you, that I met you
I celebrate the day
That I met you, that I met youThe impossible is possible
The unthinkable is coming trueAnd I celebrate the day
That I met you, that I met you
I celebrate the day
That I met you, that I met you
