

# Perfect

## All 4 One

In a story book love affair  
Everyone always win's  
And the love that we choose to share  
Starts where all those fairy tales end  
And I know they'll be times  
That I might make you cry  
But always remember that  
I, I am not perfect but baby I'm perfect for you  
'Cause everyday you tell me that it's true  
And I, I know you're not perfect but baby you're perfect for me  
You're perfect for me, you're perfect for me, oh  
There are things I could work on  
There are things I could change  
But the love that I feel for you  
Will always be there, I swear on my name  
So If you're down for the ride  
I'll stand by your side  
As long as you know that  
I, I am not perfect but baby I'm perfect for you  
'Cause everyday you tell me that it's true  
And I, I know you're not perfect but baby you're perfect for me  
You're perfect for me, you're perfect for me  
And I won't expect more out of you  
Then what I put in, baby I understand  
That all of us make some mistakes  
But love conquers all even when we fall  
I, I am not perfect but baby I'm perfect for you  
'Cause everyday you tell me that it's true  
And I, I know you're not perfect but baby you're perfect for me  
You're perfect for me  
I, I am not perfect but baby I'm perfect for you  
'Cause everyday you tell me that it's true  
And I, I know you're not perfect but baby you're perfect for me  
You're perfect for me, you're perfect for me, yeah
