

# Identify

## Kevin Martin and the Hiwatts

Some things are out of my hands,  
I'm what time and consequence have made me  
    Sit back and watch the world explode,  
Three, two, one here come the fireworks, babySome times you can feel so smart,  
    just like a ghost in school clothes  
    But my days, although mostly hazy,  
Three, two, one here comes the hurricane babyYeah, identify, identify,  
    Yeah, identify, identify  
Don't stand in line, identifyYeah, I bought the last plane ticket to the end of the world  
    Who ever says 'the good die young'?  
    All the boys are alive, all the boys are with girls,  
Time to give 'em what they're waiting forIf the drugs don't work,  
    then you probably need more  
    If the drugs don't work,  
then you probably need moreTime to give 'em what they're waiting forYeah, identify, identify  
    Yeah, identify, identify  
    Don't stand in line, no don't stand in line  
Identify, identifySome things are out of my hands
