Secret Heart

Katey Sagal

Secret Heart
What are you made of
What are you so afraid of
Could it be
Three simple words
All the fear of
Being over her was wrong
Let her in on your secret heart
Secret Heart
Why so mysterious
Why so sacred
Why so serious
Maybe your just acting tough
Maybe your just not man enough is wrong
Let her in on your secret heart
The very secret that your trying to conceal
Is the very same one that your dying to reveal
Tell her how you feel
The very secret that your trying to conceal
Is the very same one that your dying to reveal
Tell her how you feel
Secret Heart
Come out and share it
This loneliness few can bear it
Could it have something to do with admitting you just
Can't go through it alone
Let her in on your secret heart
Your secret heart
