

# If I Lost You

## Garbage

There are times when I see you talking to other girls  
I feel insecure  
And every time I see you walking out  
I wonder if you're coming back to me You tell me I've got nothing to worry about  
They've got nothing on me  
You tell me I'm a good girl and you know it  
Are you so strong, or is the weakness in me? I've never had someone like you  
Who makes me feel the way you do  
Sometimes I believe that I might die  
If I lost you  
If I lost you  
If I lost you Fears formed so long ago  
So stupid to hold on to them all  
Not every man is made the same  
So unevolved to think that way But I've never had someone like you  
Who makes me feel the way you do  
Sometimes I believe that I might die  
If I lost you  
If I lost you  
If I lost you I've never had someone like you  
Who makes me feel the way you do  
Sometimes I believe that I might die  
If I lost you  
If I lost you  
If I lost you  
Yeah If I lost you
