

Wall of Water

Mayhem

Pillars supporting sky crumble
Sun moon the stars pour down
Rivers and oceans rush where the earth sinks
Great conflagration quenched by raging flood
North and south polars
Counterchange
Screaming world
Turning over
Sky makes war with the earth
Fragments fall down
And the darkness that follows
Rent
In great
Chasms
Tachylite lava from the abyss
Turn into a pillar of vapour
Great heat boil the sea
Death of a continent
Enormous surge of water
Wipe out humanity
Coming of ice
A cataclysmic flood
Destroys the advanced
Mankind of high tech age
Wall of water
Sweep across the earth
Wall of water
Fossilize all
