

# What Am I Gonna Do

K-Ci & JoJo

What am I gonna  
What am I gonna  
What am I gonna  
What am I gonna do? What am I gonna  
What am I gonna  
What am I gonna  
What am I gonna do? What am I gonna  
What am I gonna  
What am I gonna  
What am I gonna do? What am I gonna  
What am I gonna do?  
What am I gonna do? We fell in love a year ago  
Everything was fine  
And then you started hangin' out late  
All the time, all the time I had to eat all alone  
I had to sleep all alone  
I had no one to call my own  
'Til I fell in love with someone new If you love me and I love you, baby why you've been duckin' me?  
Late at night when it gets cold, I have no one to hold  
If I love you and you love me, baby why?  
Now I've got two, what am I, what am I gonna do?  
What am I gonna do? What am I gonna do, baby?  
Jojo, help me sing it I ran into you the other day  
Everything was fine  
Until I saw you hangin' out  
With another guy, with another guy I knew you had someone else  
That's why I found someone else  
You tryin' to play me but I guess  
I guess you seen that I wasn't goin' for that If you love me and I love you, baby why?  
Late at night when it gets cold  
I have no one to hold  
If I love you and you love me, baby why? Now I got two  
What am I, what am I gonna do?  
What am I gonna do?  
What am I gonna do? Baby, I gotta know  
I need to know  
Tell me, tell me  
Tell me baby What am I gonna do?  
What am I gonna do?

What am I gonna do?  
What am I gonna do? If you love me and I love you, baby why?  
Late at night when it gets cold  
I have no one to hold  
If I love you and you love me, baby why?  
Now I've got two, what am I, what am I gonna do? If you love me tell me why? Yeah, yeah, oh
