Another Day

Freedom Call

I'm standing here in silence all alone
Can't decide between what's right and what is wrong
For just another day
My tears cry out the pain deep inside
For just another day inside
For just another dayThey touched the plains of Eden
They have seen what no one saw before
Sky forces, ride horses
When you're calling me forever
I will leave and suffer here no more
Sky forces, ride horsesThe time has come to fly away from home
For just another day inside
For just another dayTake a ride away
The world has gone astray
Fly on wings of hope
Reach for better daysWhen the journey lasts forever
We'll be riding on and on
'Cause we're standing strong together
So far away from home
So come on, come on
Come on, come on now, another dayFear no distance, no resistance
Strong they ride, guardians of my soul
Sky forces, ride horses
In dreams remain our visions
They will come and sands are running low
Sky forcesThe time has come to fly away from home
For just another day inside
For just another dayTake a ride away
The world has gone astray
Fly on wings of hope
Reach for better daysWhen the journey lasts forever
We'll be riding on and on
'Cause we're standing strong together
So far away from home
So come on, come on
Come on, come on now, it's another dayAnd we fly away
The world has gone astray
Fly on wings of hope
Reach for glory daysWhen the journey lasts forever

We'll be riding on and on
'Cause we're standing strong together
So far away from home
So come on, come on
Come on, come on now, another day
