

# All Over the Place (feat. Luke James)

Booker T.

Are you giving me this run around?  
Make me feel I need to track you down  
' baby, where you go?  
Is right where I wanna be  
Chilling up far, I'll get you where you are  
What's up with your love for me! We're all over the place,  
Playing the game, you're giving it up  
It's just in my nature, baby  
Spreading love over the place.  
We're all over the place,  
It's all in my veins, I can't get enough,  
I'm spreading my nature, baby  
Keep spreading my nature, baby!  
Girl, you don't know what you've been missing out  
Don't know how long is gonna last, baby get'  
Experience your taste, is real taste  
It's way too good to waste  
If you wanna feel good like a real woman should  
Get back with me, back in my way!  
Oh, oh, this beat goes through  
So let's get it on, get it on to the early morning  
And once you get it, I'mma move on, oh  
And on, and on, and on, and on We're all over the place,  
Playing the game, you're giving it up  
It's just in my nature, baby  
Spreading love over the place.  
We're all over the place,  
It's all in my veins, I can't get enough,  
I'm spreading my nature, baby  
Keep spreading my nature, baby!  
All over, all over, all over, all over, hey, hey  
Take it down, take it down! We're all over the place,  
Playing the game, you're giving it up  
It's just in my nature, baby  
Spreading love over the place.  
We're all over the place,  
It's all in my veins, I can't get enough,  
I'm spreading my nature, baby  
Keep spreading my nature, baby!

All over, all over, all over, all over, hey, hey
