

# Something Says (Original Mix)

**Jan Blomqvist**

The beginning says:  
"Don't forget about me".  
The end only says:  
"We'll never meet, yeah".Happiness says:  
"Can you gimme a ride?"  
But anxiety knows,  
there's more room inside, yeah.The wind would love,  
to stay here with you.  
Fog, he tries,  
to think it through, yeah.The disguise moans:  
"I feel so used".  
Promodel says:  
"I wanna be yours," yeah.Wanna be yours.Heart lets it slip:  
"I'm not a boss".  
No one admits:  
"I wanna be loved".Truth whispering:  
"Don't conceal me".  
Love secretly writes:  
"Come and find me".Come and find me."Where did we go wrong?"  
Said the memory.  
The flower appeals:  
"Please kidnap me," yeah."Gimme your hand."  
Is what said the fear.  
Children they dine  
with wild tigers here.TV, it hissed:  
"It's just us two."  
Its shadow repeats:  
"Can't follow you," yeah.Can't follow you.Temptation says:  
"I am the boss."  
The hiding place says:  
"I feel so lost," yeah.And so the cringe  
fits so afraid.  
Gravity warns:  
"No need to hate," yeah.
