

So Hot

Touch and Go

I'm so hot
Just a little bit closer
Just a little bit closer
Woo I'm so hot
(The weather is heating up)
Just a little bit closer
(Get out there and soak it up)
I'm so hot
I like it
Oh yeah I like that
So hot
(And here's today's forecast
It could reach 90 degree
But we're heading for all time high)
Woo it's the little
It's the little
(It's just keep getting hotter
Now that's hot)
I like it
I like it
Gimme some more
(It just keep getting hotter
All the way up)
Gimme some more
So hot
I'm so hot
Just a little bit closer
Just a little bit closer
Woo I'm so hot
(The weather is heating up)
Just a little bit closer
(Get out there and soak it up)
I'm so hot
I like it
Oh yeah I like that
So hot
And here's today's forecast
It could reach 90 degree
But we're heading for all time high

Woo it's the little
It's the little
It's just keep getting hotter
Now that's hot
I like it
I like it
Gimme some more
It just keep getting hotter
All the way up
Gimme some more
So hot
There you go beautiful thing
Get out there and enjoy it
