

My Stoney Baby

311

Advisory - the following lyrics contain explicit language:

The fish who keeps on swimming
Is the first to chill upstream
I want your fish right by me
That's how it has to be The songs I sing they don't mean a thing if you're not there to hear it
But then soon is the time you'll be by my side
It's copesetic if you let it set up
And keep the down stream down and up stream up Girlfriend boots and all you lookin' fresh again
Move toward me so I can smell the sweetness of your flesh, dam
Cool down your fine self
When I find my way to the wetness of your sweet mouth Sweetly in every way that you treat me
A fish story but you know it's picture perfect
Our morning glory every time that we wake
The morning ride is the longest ride take it It's time to find the kind, titillate the flow
(Like this take it like that)
Swimmin' and hummin' with a body and soul
(Take a yin and a yang, like my man jack sprat to)
It's time to find the kind titillate the flow
(Do down forever it's wetter)
Swimmin' and hummin' can't say it any better My stoney baby
My stoney baby And now I'm in here with my friend Ruskie
In their house but they're not home
If they find out what's been on they'll kick us out and we'll be gone
No pool and that's not too cool The songs I sing they don't mean a thing if you're not there to hear it
But then soon is the time you'll be by my side
It's copesetic if you let it set it up
And keep the down stream down and up stream up My stoney, my baby, swings with the groovin' funk
The groovin' thang, whistlin' as I rip my rhymes
Time and time again struttin' and in the summertime So screw it, strip down and be generic
Strip down and be a passenger, strip down and be a messenger
In askin' why I'm bori come up blank in the winter
In askin' why I'm born I come up on when I'm on her It's time to find the kind titillate the flow
(My summer his summer it)

Swimmin' and hummin' with a body and soul

(Could be one to go down)

It's time to find the kind titillate the flow

(To go down forever together)

Swimmin' and hummin' and then I kiss My stoney baby, my stoney, my stoney

My stoney baby, my stoney

My stoney baby, my stoney, my baby, my stoney

My stoney baby
