Jennifer

Jodeci

Here I walk all alone again
That I could settle down my friend
Hoping for something to last (hoping for something to last)
Then you left me all alone
Called me on the telephone
Said you found someone, and you found him fast
Girl you found him fastNow all my dreams are shattered
As soon as I came home
Now that I lost you girl
Jennifer is gone[Chorus]
I want you to know this pain is real
I wish I could show you how I feel
Nah, nah, nah, nah, nah, nah, nah, nah, nah, nah, nah, nah
I want you to know this pain is real
I wish I could show you how I feelNow what is this other guy about
What does he have that I have not
Is it because I'm too far (is it because I'm too far)
Distance is not too far away
Why is this the price I have to pay
To feel your touch, you beautiful star
Ohhh beautiful starNow all my dreams are shattered
As soon as I came home
Now that I lost you girl
My Jennifer is gone[Chorus]
