

Low Down Ways

The Marshall Tucker Band

She said that she were leavin'
And that was yesterday
She packed her bags cryin'
And slowly she walked away I ain't never seen a woman
Who could love me for a day
I ain't never seen nobody
Who could take my low down ways She said that she was tired
And was going to carry on
But I will always think of her
And the memories that linger on I ain't never seen a woman
Who could love me for a day
I ain't never seen nobody
Who could take my low down ways I ain't never seen a woman
Who could love me for a day
I ain't never seen nobody
Who could take my low down ways
I ain't never seen nobody
Who could take my low down ways
