

Too Much Too Fast

311

Rifling through the pictures of you
I can finally tell they developed well
The tale I see, it tells my favorite story of friction and glory
Breaking the cast of repeating the past
It's not written that's all just fiction
Oh, who says it's written in stone
It's been a long time, such a long time
Finding my way on back out, whoa
Somehow you stood by beyond when you should
I'm amazed at how things have turned out
What is revealed? What is concealed?
It makes all the difference, say what you will
We unreeled that human web just to see how it feels
Too much too fast for the moment to last
I tumbled to you while stumbling through
How do I get my head up off the tracks listening for a train?
'Cause that's just no way to live
I've got so much love to give, much too fast
Out of the blue it all comes in view
You never win if you don't go all in
The perfect hand can go just as you planned
I don't understand
Began right on track, slipped through the cracks
We were two of a kind who seemed destined to find
We unreeled that human web just to see how it feels
Too much too fast for the moment to last
I tumbled to you while stumbling through
How do I get my head up off the tracks listening for a train?
'Cause that's just no way to live
I've got so much love to give, much too fast
So much love to give, too much too fast
So much love to give, too much too fast
So much love to give, too much too fast
